

## Holy Family Catholic Primary School Year 5 Maths Long Term Plan and Summer Term Overview

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11	Week 12
Autumn	Number Place value		Number Addition and subtraction		Number Multiplication and division A		Number Fractions A					
Spring	Number Multiplication and division B		Number Fractions B		Number  Decimals and percentages		Measurement Perimeter and area		Statistics			
Summer	Geometr Shape	_		Geometr Positi and direct	on	Number <b>Decim</b>	nals		<sub>Number</sub> Negative numbers	Measurement Converting units		Measurement Volume

## Holy Family Catholic Primary School Year 5 Maths Long Term Plan and Summer Term Overview

Year 5 – Summer Term										
Geometry: Shape	Geometry: Position and direction	Number: Decimals	Number: Negative numbers	Measurement Converting units:	Measurement: Volume					
Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles  Draw given angles, and measure them in degrees (°)  Identify: angles at a point and 1 whole turn (total 360°); angles at a point on a straight line and half a turn (total 180°)  Use the properties of rectangles to deduce related facts and find missing lengths and angles  Distinguish between regular and irregular polygons based on reasoning about equal sides and angles  Identify 3-D shapes, including cubes and other cuboids, from 2-D representations	Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed	Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents  Solve problems involving number up to 3 decimal places  Read, write, order and compare numbers with up to 3 decimal places  Multiply and divide whole numbers and those involving decimals by 10, 100 and 1,000	Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero	Convert between different units of metric measure [for example, kilometre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre  Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints  Solve problems involving converting between units of time	Estimate volume [for example, using 1 cm3 blocks to build cuboids (including cubes)] and capacity  Estimate volume and capacity [for example, using water]
